#### Visual Process Flow

Updated Visual process flow to make it easier to find information and complete tasks.

## What is Sage 300c?

With Sage 300c, you'll have anytime/anywhere access, a modern new user interface, and easy mobile access to real-time key performance indicators.<sup>1</sup>

These new screens aren't just great looking, they also help you improve productivity. You can access Sage 300c as you do today or benefit from the new web screens using a browser from a desktop, laptop, or tablet. You have the freedom of choice on how you want to access Sage 300-anytime, anywhere<sup>2</sup>.

### Enjoy mobile access with new modern web screens

Sage 300c features new web screens that can be run side by side with the Sage 300 traditional Windows screens. These web screens are intuitive, and easy to navigate and provide the same functionality you have today in Sage 300.

### Keep tabs on critical information with the new homepage

Get a pulse on your business with the new web homepage in Sage 300c. You can select an anytime, anywhere dashboard specific to your business with key performance indicators to access in the office or away through any mobile device.

<sup>1</sup> With Sage 300c, you will have web access to Sage 300 General Ledger, Accounts Receivable, Accounts Payable, Order Entry, Purchase Order, Inventory Control, Tax Services, Bank Services, Common Services, Administrative Services, and Payment Processing.

<sup>2</sup> To use Sage 300 web screens over an external network or the Internet, you must have security measures such as Secure Socket Layer (SSL) or Virtual Private Network (VPN) in place to protect your data. Consult your IT professional or business partner to determine the security measures appropriate for your needs.
