Complete Sales Processing on Mobile Devices

SalesAnywhere

For Sage 300

Cost effective solutions with instant time to benefits for SMEs

SalesAnywhere

SalesAnywhere uses web service technology and the Sage 300 SDK to provide real-time online posting of transactions from phones or tablets when salesmen are on the road.

Quotations

Impress your customers by creating and sending them quotations instantly in front of them, instead of days later.

During Meeting → **Include pictures of items** → **Generate quotation in PDF** → **Send by email or messaging apps** → **Win Customers**

Sales orders

Create sales orders remotely and post them in Sage 300 O/E right away.

Salesman is outside the office → **Quick search** → **Look up customer's information & balance** → **Look up stock availability** → **Data updates instantly in Back office**

Shipment and invoicing

If physical products or services are delivered to customers by mobile salesmen, shipments and invoices can be generated and posted as well on the spot, and payments recorded.

- Keep stock availability and count up-to-date
- Generate and print invoices on mobile printers
- Record payments against the invoices which are added as A/R Receipts right away
- Enable Signature

Payment

Salesmen can also look up previous orders in Sage 300 and amend them, or continue with the sales cycle when goods are delivered to the customers.

- Look up orders and continue with shipment and invoicing
- Generate new orders based on previous ones
- Payment gateways support stripe

Dunning

Put your salesmen in control of reminding their customers of overdue payments. They would be glad as their commissions depend on full customer payments.

Look up overdue invoices

Generate dunning letters immediately

Send by email or messaging apps

Promotion QR Codes

An easy way to make your promotion to reach your customers and enable customer to enter the order conveniently and quickly.

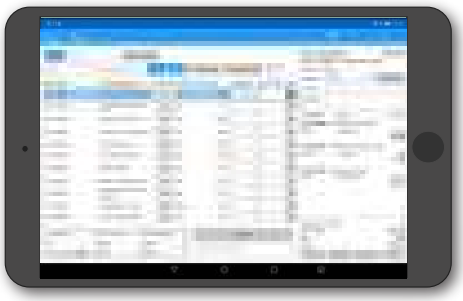
Create an O/E quotation with special discounts

Generate QR code and send to customers

scan QR code to order the promotion

POS Mode

- Mini-POS for over-the-counter sale
  - Trade shows
  - Pop-up stores
- No need for expensive POS hardware
  - For occasional use
  - Not a retail store



Customer Self-service app

The Customer Self-service app allows your end-customers to place orders with you any-time anywhere. Eliminate manual work of order taking and of notifying your customers with shipment and invoicing status.

- Browse items and place orders any-time anywhere.
- See current promotions and discounts
- Get notification once an order is released, shipped, and invoiced
- View invoices and pay within the app
- Check past orders and re-order
