

THE WORLD MANAGEMENT PTE LTD

Add On Modules to SAP Business One

Intercompany

Want to increase efficiency with a single source of data entry for transactions that involve 2 companies?

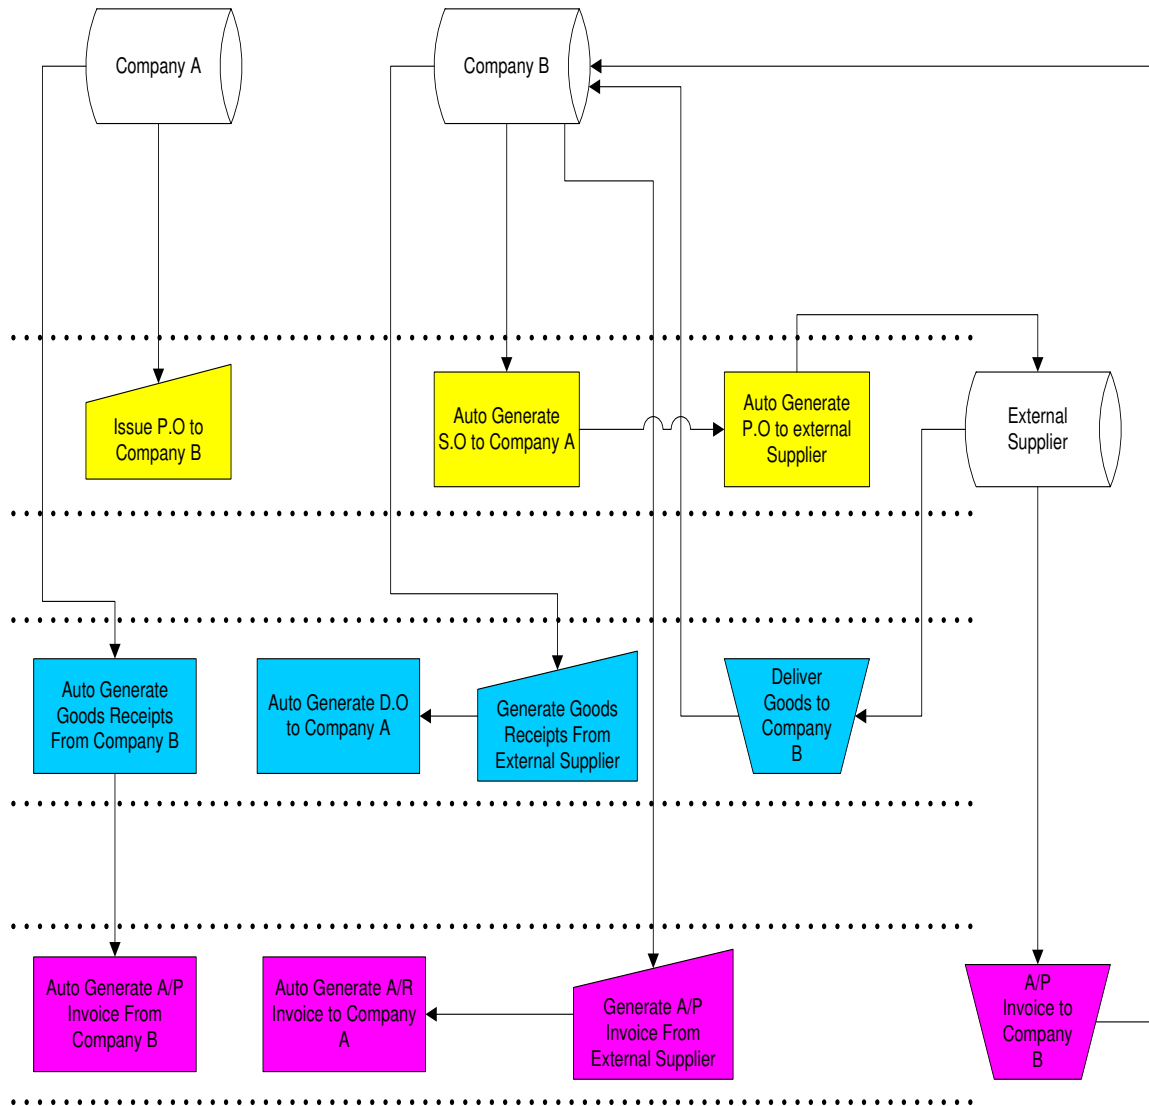

With Intercompany modules, user does not have to manually into 2 companies databases.

Intercompany module automates the documents creation between multiple company databases. For example, user can create a purchase order in source company database and a sales order will be created in the target company database.

It saves time and increase user productivity.

Key Features

- Auto creates marketing documents across multiple databases
- Support intercompany fund transfer
- Support payment on behalf of company A by company B
- Option to create final document or draft documents

Minimum System Requirements

- SAP Business One 2007
- MS-SQL Server 2005
- Windows XP Professional 32 bit
